

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state that Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. Richmond, 84 Progress Avenue, Providence, R. I.

From Mrs. Maria Irwin, Peru, N.Y.

PERU, N.Y.—"Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worn out all the time. This splendid medicine helped me, as nothing else had done, and I am thankful every day that I took it."—Mrs. Maria Irwin, R.F.D. 1, Peru, N.Y.

From Mrs. Jane D. Duncan, W. Quincy, Mass.

SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he declared me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. Jane D. Duncan, Forest Avenue, West Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Similar. "Longbow's story of his experience on the firing line reminds me strongly of his bank account."

"How so?"

"A trifle overdrawn."

Our idea of a philosopher is the man in the hole who contrasts himself with the poor devil in the trench.

Two often ceases to be company after they are made one.

HORSES PIGS and CATTLE

PRODUCTION OF BABY BEEF

Animals Used for This Purpose Must Be Well Bred and of Fine Quality—Keep Them Fleecy.

"What is meant by the term 'baby beef' and what kind of cattle are used in baby beef production?" was a question which was put to Professor G. W. Barnes, farm advisor on live stock of the Agricultural Extension Service of the University of Arizona College of Agriculture. He answered that fat cattle between the ages of one and two years, weighing between eight and eleven hundred pounds, are used.

They must be well bred and of fine quality. Such cattle can be finished quicker and are the only class of cattle which can be used in the production of baby beef. The cattle to be used for this purpose should not be allowed to lose their baby flesh or baby fat. They must be kept fleshy from start to finish, for when they once become run down, it is a difficult proposition to have them finished for market under eighteen months. They

Baby Beef.

must be fed a liberal ration of fat-producing feeds, especially grains.

When beginning to feed baby beefs, they should receive large quantities of alfalfa or clover hay, or other such rough feeds as will increase their digestive capacity so they can handle large quantities of grain. If better calves instead of steers are to be fed, they will finish more quickly and should be marketed earlier.

The younger the prime heifers are at the time of marketing, the less discrimination in price will the butcher make between heifers and steers. The most common mistake is that of marketing before the individual is ready or ripe.

MANAGING THE HOG PASTURE

Desirable to Have Alfalfa Fenced Off Into Suitable Areas to Secure Fresh Fields.

While a few hogs can be raised confined in limited quarters, provided such quarters are kept clean, they will do better, remain healthier and produce pork more economically if they have plenty of alfalfa range, according to Prof. G. W. Barnes, farm advisor on live stock of the University of Arizona College of Agriculture extension service.

It is desirable to have the alfalfa pasture fenced off into suitable areas, so that the hogs can be shifted from one pasture to another. This will not only provide fresh pasture, but will give an opportunity to cultivate, and if need be, to disinfest.

Practically all cases of intestinal worms, which are common in swine, are contracted from infested grounds; therefore, by pasture rotation you can help keep your hogs free from these parasites.

STRIVE TO PREVENT CHOLERA

When Disease Attacks Herd Secure Services of Competent Veterinarian—Follow His Directions.

The only way to cure hog cholera is to prevent it. This might be said of almost any disease, human, bovine or porcine.

The prevention, however, is not always in the hands of the farmer, but it is generally. When hog cholera attacks your herd, or what you believe to be hog cholera, either secure a competent veterinarian in your vicinity or apply to the veterinary department of your state. Have them send a veterinarian to visit your farm, and kill enough hogs to find out what is the matter. Then follow his directions.

While this is going on, don't allow any person to visit your farm, and don't visit any other farm. If dogs come about your place, shoot them. If you have pigeons about, shoot them.

Benefits of Cattle Feeding.

Cattle feeding will enable the manager to dispose of his surplus feed in a profitable manner, afford more barnyard manure with which to enrich his land. It will also be the means of diversified farming in which rotations may be planned, not only to supply a variety of feed for the stock, but also with special reference to improving the fertility of the soil.

Little Kick is Costly.

Don't allow the pregnant sheep, or nose, either, to feed in the same lot with grown horses and cattle. If you do you'll regret it along about lambing time—after it's too late to remedy matters, as it takes a mighty light kick or punt to paralyze or kill unborn lambs or pigs, to say nothing of the injury to the pregnant stock.

Segregate the Ram.

Don't keep the ram with the ewes. Give him light, clean, dry quarters by himself.

Stop That Backache!

There's nothing more damaging than a constant backache. You are lame when you walk. Pains come when you bend or lift. It's hard to rest and next day it's the same old story. Pain in the back is nature's warning of kidney trouble. Neglect may pave the way to dropsy, gravel, or other serious kidney ailments. Don't delay—begin using Doan's Kidney Pills—the remedy that has been curing backache and kidney trouble for over fifty years.

A Mississippi Case

Mrs. H. E. Ward, "Every College Girl," writes: "My back pains me intensely and I had surgery over my kidneys. I couldn't lie in one position long and was nervous and restless. On using Doan's Kidney Pills my back was strengthened and the pain was removed. I haven't suffered since."

Get Doan's at Any Store, 50c a Box. DOAN'S KIDNEY PILLS. POSTER-MELBURN CO., BUFFALO, N. Y.

Healthy Baby Smiles.

An interesting mental process with physical manifestation which is found in every healthy baby is smiling. It is a remarkably early one, too, and a child of a month old will often show a distinctly pleased smile when its little face is patted or it is tickled. At first the smile spreads very slowly over the tiny features, then, as time passes, flashes upon the face and disappears again with equal celerity, and by the time the first three months are past is accompanied often enough by little chuckles of glee.

But laughter comes later, often much later, and many children never really laugh until they are a year old, or even more. It is, indeed, very rare to hear laughter before the first six months are accomplished, and when it is heard it should be regarded as a symptom of unusual intelligence, may be gratifying to a mother's pride, but most certainly not to be excited or provoked.

FINDS A CURE FOR PELLAGRA

All Skin Eruption Gone, Doctors Now Convinced Mrs. Vaughn is Entirely Well.

Mrs. C. H. Vaughn, Millville, Ark., writes—"There is nothing I ever could do but what I can do now. There is no sign of skin eruption. One of our local doctors told me that my cure was one of the grandest things that ever happened—not only for me but for the whole community, to let them know that there is a cure for Pellagra."

"All the doctors that waited on me are convinced that your remedy is a real cure."

There's the true word from a cured patient. If you have Pellagra or know of anyone who suffers from Pellagra, it is your duty to consult the resourceful Vaughn, who has fought and conquered the dreadful malady right in the heart of the Pellagra belt in Alabama.

The symptoms—hands red like sunburn, skin peeling off; sore mouth, the lips, throat and tongue a flaming red with much mucous and choking; indigestion and nausea; either diarrhea or constipation.

There is hope, get Vaughn's big free book on Pellagra, and learn about the remedy for Pellagra that has at last been found. Address American Compounding Co., Box 2664, Jasper, Ala., remembering money is refunded in any case where the remedy fails to cure.—Adv.

The Telephone Pole.

The employer of a Polish girl who has learned quickly to speak English tells of her attempted mastery of the telephone. After its use was explained to her, she was eager to answer every call. A ring came and she jumped to the phone.

"Hello," came from the receiver.

"Hello," answered the girl, flushed with pride at being able to give the proper answer.

"Who is this?" continued the voice.

"I don't know," exclaimed the maid.

"I can't see you,"—Harper's Weekly.

TOUCHES OF ECZEMA

At Once Relieved by Cuticura Quite Easily. Trial Free.

The Soap to cleanse and purify, the Ointment to soothe and heal. Nothing better than these fragrant super-emollient for all troubles affecting the skin, scalp, hair and hands. They mean a clear skin, clean scalp, good hair and soft, white hands.

Sample each free by mail with Book. Address postcard, Cuticura, Dept. XY, Boston. Sold everywhere.—Adv.

Sense of Humor.

"What is a sense of humor?" "A sense of humor," replied Mr. Growther, "is what makes you laugh at something that happens to somebody else which would make you mad if it happened to you."

ALLEN'S FOOT-EASE for the THROAT

Over 100,000 packages of Allen's Foot-Ease, the Antiseptic powder to shake into your shoes, are being used by the German and Allied troops at the front because it cures the feet, gives instant relief to Corns and Bunions, has excellent action, tender feet, and makes walking easy. It is twice as easy to fool yourself

as it is to fool other people.

PROPER CREDIT TO NOBODY

Simple Logic Easily Proves That He Has Not Hitherto Been Treated With Justice.

The time is now arrived when Nobody should come to his own. Hitherto Nobody has not been treated with justice. As one of the most important persons in America, Nobody should have statues erected in all of our principal cities. Let us, therefore, consider the claims of Nobody. In the first place, Nobody knows. Take, for example, the currency bill, the tariff schedules, the status of philosophy, or the art of the futurist. Nobody knows about all of these things, when all the rest are in entire ignorance. Furthermore, if you want to know the actual truth about these important questions, and many more, Nobody is the only one who can tell you. Everybody takes some interest in baseball, movies, vaudeville, bridge and highballs; but when it comes to all the things which are known as vital, such as government, slums, etc., who cares? Why Nobody cares. Nobody is, therefore, our best citizen. Hurrah for Nobody!—Life.

Even while the poet was singing of the little brown jay probably he was thinking of the red hiker.

After a man has met his wife's relatives who live in the East he ceases to be afraid of them.

FOR HOPE-CHEST DRAPERY

Letters and Monogram Designs of the Present Are Beautiful as Well as Varied.

The engaged girl need be at no loss for new designs in letters and monograms for the hope-chest drapery, if she stops to consider the varieties of alphabets that are being shown among the newest embroidery patterns. Even the obvious letter O may take on enough novelty to make it unrecognizable. Perhaps the newest and most novel addition to the hosts of artistic alphabets are the Japanese letters. They are most effective when done in the familiar Japanese blue on white. While the Japanese lettering is original and attractive, it is not sufficiently dignified for the more formal pieces of linen, and should be reserved for towels, luncheon cloths, pajamas, etc. For the large dinner cloths and napkins the old English lettering is always good, and may be varied by working the letter in a heavy outline stitch and filling in the solid parts with

Never Satisfied. "He gives twice who gives quickly." "That's right. Those charity collectors always come back for more."

In these mercenary days man can break up his home by dropping his wad.

seed stitch. Outwork letters are new and most effective for table and bed linen. Even the simple block letters are to be preferred to the ornate, much-decorated script letters that once were the only alternative to the stately old English alphabet. Three of these straight block letters combined in an oval or diamond of cut work or solid work make a very suitable monogram for either table or bed linen. And don't forget the cross-stitch lettering; it is more popular than ever now.

The Useful Sailor.

Everyone is glad that the sailor shape is in evidence in spring millinery. Many hats there are of pattern type, poke shapes, too, that are vastly becoming. But for gentlemen, wear nothing is so smart as the sailor. It will probably be worn a great deal.

Ribbon Bows.

Bows of ribbon are effectively used on some of the new wide-skirted frocks of satin and silk. One that is pretty has little square bows of satin reaching from the throat to hem.

Up in the Air. "Have you ever been up in an aeroplane?" "No, but I once acted as judge at a baby show."

The Lord freezes the water, but we are expected to cut our own ice.

W. L. DOUGLAS

MEN'S \$2.50 \$3 \$3.50 \$4.00 \$4.50 \$5 \$5.50 SHOES
